# **TIB Open Publishing: State-of-the-art, non-commercial library publishing at TIB**

Dr Xenia van Edig & Dulip Withanage  
10 May 2021  
2021 Library Publishing Forum

## Agenda

1. **Setting the scene: TIB Open Publishing within TIB's strategy**
2. **Our goal**
3. **What we offer**
4. **Standards**
5. **Current status an recent developments**

## 1. Setting the scene: TIB Open Publishing within TIB's strategy

- TIB: Germany's central library for technology, architecture, chemistry, computer science, mathematics, and physics
- Open access and open science: core values
- Important focus: conferences
- Open access transformation:
  - Funding for open access and journal flipping
  - Open access consulting
  - Repositories, video repository, OER, Metadata, ORKG
- TIB: open source orientation
  - Active development for OJS
  - Major Development Partner of PKP

## 2. Our goal

- Establishment and further development of an OJS publication platform
- Quality-assured open access
- High visibility
- Non-commercial offer
- Journals and **conference publications**
- Open to all disciplines, but focus on TIB subjects
- Only for publications that meet set quality criteria
- No TIB ownership of publications
- Publisher-like offer for editors

### 3. What we offer

- Offer to editors of existing and new publications
- Consulting and technical support
  - Websites, review workflow, publication, dissemination
  - Support and advice on OJS and formal quality criteria
  - Support in indexing in databases and reference services, indexing in Google Scholar
  - Conformity with data protection requirements
- Price depending on type of publication (conference/journal) and number of articles/contributions

## 4. Standards

- Enable open access to all publications on the platform
  - Free access
  - Free re-usability
  - Long-term availability of electronic content
- Apply minimum formal standards derived from
  - Plan S (e.g. CC BY, DOIs, transparency)
  - DOAJ Seal (e.g. deposit policy, metadata quality, long-term archiving)
  - OASPA (e.g. I4OC, website content)
  - COPE (publication ethics)

## 5. Current status and recent developments

- Web presentation: <https://tib-op.org>
  - OJS theme plugin based on default theme
  - GDPR cookie consent and accessibility requirements
- Conference proceedings
  - Publication of the first proceedings two volumes in May
  - Adaptation of OJS for conferences
  - Technical specifications – round

## 5. Current status and recent developments

- Development enhancements of OJS XML workflow
  - Standards (JATS-XML)
  - Conversion
  - Editing
  - Distribution of different formats (XML, HTML, PDF)
- Identifier support
  - ROR-Plugin for OJS
    - Demo: <https://github.com/withanage/ror/blob/master/docu/ror.gif>
  - ORCID, Crossref funder id support (default)
